

# BABITA TOURS

Indian Wildlife Travel

**North-East India Tour 2025**

**Assam & Arunachal Pradesh**

Purple Sunbird

**Sat 15<sup>th</sup> March.** Arrive Delhi, transfer to hotel. Depending on the time of your arrival you may have the opportunity to look for birds like Purple Sunbirds, White-eared Bulbul, Common Myna, Black kites and others in the hotel gardens.

**Sun 16<sup>th</sup> March.** Full day birdwatching and game viewing at Sultanpur.  
Sultanpur is a lovely little reserve on the outskirts of Delhi. You can see a great number of birds walking here and you have very good chances to see Nilgai or Blue Bull, the largest antelope in India.

Sultanpur

Nilgai

Grey-headed Swamphen

Indian Robin

**Mon 17<sup>th</sup> March.** Early departure for Indira Gandhi Airport for 09.40 flight to Guwahati, arrive 12.05. Transfer to Baligora Eco Camp at Nameri, about an

eight-hour drive. Expect to see some good birds in the gardens and surroundings here, mynas, barbets, redstarts, treepies, bulbuls and more.

Baligora Eco Camp

Common Myna

Coppersmith Barbet

Rufous Treepie

**Tues 18<sup>th</sup> March.** Full day at Nameri National Park. After crossing the Jia-Boroli River we will explore the park on foot. There are so many birds we might see here, hornbills, barbets, minivets, woodpeckers, babblers, green pigeons and many more, but the main target is the endangered White-winged Duck which may number as few as 250 in the wild.

White-winged Duck

**Weds 19<sup>th</sup> March.** This morning we will explore the Jia Boroli River by raft where our main target is the Ibisbill. We will also search for Great Thicknee, Small Pratincole, River Lapwing and others. We return to the park in the afternoon.

Ibisbill

Great Thick-knee

River Lapwing

Small Pratincole

**Thurs 20<sup>th</sup> March.** After breakfast we leave Assam and go into the beautiful state of Arunachal Pradesh. We will make frequent stops on our seven-hour drive to our hotel at Dhirang to look for White-capped and Plumbeous Water Redstarts, Brown Dipper, forktails, laughing thrushes, wren babblers, yuhinas and whatever else we might find.

**Fri 21<sup>st</sup> March.** Today we head for our hotel at Tawang. We will be birdwatching all day as we travel via the Sela Pass. This will be our highest point at about 4,500 metres. We will be looking for some high altitude specials including different accentors, Snow Partridge, Himalayan Monal, Blood Pheasant, Grandala, Solitary Snipe, Blue-fronted Redstart and rosefinches etc.

White-browed Rosefinch

Road to Tawang

**Sat 22<sup>nd</sup> March.** Today we birdwatch the Tawang area looking for similar species to yesterday.

Sela Pass area

Snow Pigeon

Altai Accentor

**Sun 23<sup>rd</sup> March.** Today we return to Dhirang retracing our steps and giving ourselves more chances for high altitude specials. If we have time, we will visit the Sangti Valley to look for Long-billed Plover.

**Mon 24<sup>th</sup> March.** In the morning we birdwatch the Mandala Road area. We will look for Black-tailed Crake, different species of treecreeper and nuthatch, Himalayan Buzzard, Himalayan Vulture, Himalayan Bluetail, niltavas, minlas, wren babblers and more. After lunch we drive to Lamacamp at Eaglenest. The journey is about five hours, but we'll birdwatch on the way.

Bar-winged Wren Babbler

Rufous-bellied Woodpecker

**Tues 25<sup>th</sup> March.** Birdwatching Lamacamp area Eaglenest. This is a truly magical wildlife reserve, a vast area of pristine montane forest in the foothills of the Himalayas. This camp is famous as the only known site for the beautiful and extremely rare Bugun Liocichla. This bird was only described for science in 2006 and may number as few as fifty individuals.

Bugun Liocichla

We will look hard for this special bird, but we will hope to see others such as Chestnut-headed Tesia, Striated and other Laughingthrushes, Beautiful Sibia, Black-throated Tit, Yellow-cheeked Tit, Speckled Wood Pigeon, babblers, barwings, sunbirds, woodpeckers, yuhinas, and many more. There is even a very slim chance of Red Panda here!!

**PLEASE NOTE**, accommodation here is very basic, we will be at about 2,350 metres and it can be cold, but it is worth any minor discomfort!!!

**Weds 26<sup>th</sup> March.** In the morning we birdwatch the Lama Camp area again and after breakfast we drive to Bompu Camp, birdwatching en route.

Bompu area

Accommodation Bompu Camp

Yellow-bellied Fantail

**Thurs 27<sup>th</sup> March.** Birdwatching Bompou Camp area. The pristine forest is similar to the Lama Camp area, but offers some different bird species. We will search for the endangered Beautiful Nuthatch in mixed feeding flocks with Himalayan Cutia, shrike-babblers, scimitar babblers and more. We will also look for Grey Peacock Pheasant, Chestnut-breasted Partridge, different tragopans, more woodpeckers, different species of bullfinch and Red-headed and Ward's Trogon.

Himalayan Cutia

Ward's Trogon

Green-tailed Sunbird

Great Barbet

**Fri 28<sup>th</sup> March.** Birdwatching Bompou Camp area.

**Sat 29<sup>th</sup> March.** After breakfast we leave Arunachal and drive to our hotel at Kaziranga in Assam. On the way we stop for a boat trip on the Brahmaputra River to look for Ganges River Dolphin. The whole journey is about six hours.

**Sun 30<sup>th</sup> March.** Morning and afternoon game viewing and birdwatching in the Kaziranga National Park, most famous for the large population of Indian One-horned Rhinoceros, there is a lot more to see here. Rarities here include Pallas's Fish Eagle, Swamp Francolin and the Greater Adjutant Stork.

Greater One-horned Rhino

Black-necked Stork

Pallas's Fish Eagle

Bar-headed Goose

Extensive wetlands in this reserve mean we'll see plenty of wetland species, we'll hope to see the highest-flying bird in the world, the Bar-headed Goose. You can expect to see other birds including Indo-Chinese Roller, different

species of parakeets, bee-eaters, owlets, and lapwings as well as mammals like Asian Elephant, Asian Water Buffalo and Hog, Muntjac and Sambar Deer. Primates should include Assamese Macaque and Hoolock Gibbon, Smooth-coated Otter, the endangered Eastern Barasingha or Swamp Deer (population 350-500) and there is a good chance of Bengal Tiger. Though distant, we saw two here in 2024!

**Mon 31<sup>st</sup> March.** Morning and afternoon game viewing and birdwatching in Kaziranga.

Red Junglefowl

Indo-Chinese Roller

Green Bee-eater

Chestnut-headed Bee-eater

White-throated Kingfisher

Red-wattled Lapwing

Brown Fish Owl

Asian Barred Owlet

Barasingha

**Tues 1<sup>st</sup> April.** After breakfast we have a nine-hour drive to our hotel at Manas National Park.

Accommodation at Manas

**Weds 2<sup>nd</sup> April.** We spend the morning and afternoon exploring this wonderful reserve. The Manas National Park straddles the border between Assam and Bhutan. Though heavily forested in places, Manas is best known for the very rare Bengal Florican which lives on the open grasslands here. Estimates put the number here at about 50, half the entire Indian population. On our 2024 tour we saw five at the same time!

Bengal Florican

**Thurs 3<sup>rd</sup> April.** Morning and afternoon game viewing and birdwatching. We can expect more elephants and wild Water Buffalo and we will look for Capped Langur. We will take our time to search out many more birds here.

Asian Water Buffalo

Asian Elephant

Hodgson's Redstart

Capped Langur

Muntjac

Asian Emerald Cuckoo

White-rumped Shama

Great Hornbill

**Fri 4th April.** Drive to Guwahati Airport for 1240 hrs flight to Delhi, arrive 1535 hrs. Hotel.

**Sat 5<sup>th</sup> April.** Flights home to UK.

Brown Boobook

This three-week tour takes us to some of the most exciting birdwatching areas of North-east India covering, as it does, such a variety of habitat types from the forest and river at Nameri and the unspoilt forested foothills of Eaglenest, to the mountains of the Himalayas, and from the wetlands of Kaziranga to the grasslands of Manas. We will cover a huge area. On some days we will need to start very early in the morning and some days will be long. We will spend time at altitude, it may be very cold at times and at others very hot. There will be a lot of walking in some places. The accommodation is mostly very comfortable, but at Lama Camp & Bompu Camp at Eaglenest we will be living in tents or very basic rooms. There will be proper beds with warm quilts, but the bathroom facilities may be a challenge to some people, hot water may be limited. That said the birds and wildlife certainly make the effort worth it! Food is local, but is not ridiculously hot and spicy, though if you don't like curry you might need to think before signing up. We will have the services of excellent local guides and you can expect to see over 400 species of bird and wonderful animals including some very rare and localised species including Bengal Tiger. As mentioned in the text, though distant, we did see two in 2024!

'An amazing and unforgettable birding expedition - Assam and Arunachal Pradesh in Northeastern India did not disappoint! Each destination proved more outstanding than the last. Birding was our main objective, but the other wildlife proved to be just as exceptional. Our main guide Ashley and our local Indian guide Kandu were the model of passion and professionalism. They both worked hard to maximize the amount of bird sightings, which is not an easy feat considering the challenging, dense forests of India. They were enthusiastic and truly shared the joy as the group found yet another "lifer".'

Babita Tours planned every detail of the itinerary. We were picked up at Delhi airport and began birding straight away. We always had an interpreter to handle any communication or issue. The drivers were great as they handled the winding mountain roads with care and proficiency, which is not an easy task when you see the roads!

Fabulous birds and wildlife, breathtaking vistas and experiences in Indian culture, cuisine and history. This trip is for the serious birder and truly an adventure of a lifetime.

I highly recommend Babita tours for the stress free & fantastic birding experience this trip provides.'
